

COWBOY BOURBON

THE STORY OF 'COWBOY BOURBON'

At Garrison Brothers Distillery, they fill oak barrels with Texas Straight Bourbon Whiskey. Occasionally, one of their barrels defy explanation. Straight from the barrel, uncut and unfiltered, the bourbon is sweeter, richer, and fruitier than anything else they have ever produced. They take these special barrels aside and marry the bourbon together in a stainless-steel pot where they are allowed to breath for a few weeks. In the interest of quality control, they drink as much as they possibly can and then bottle what remains!

IT IS UNCUT

Barrel proof bourbons can be dangerous. If you're not accustomed to 3 or 4 strong drinks you should cut back or add a little water or club soda as the alcohol proof is 140 proof vs the usual 94 proof.

IT IS UNFILTERED

If you hold it up to the light, you'll see drifts of barrel wood and charcoal floating in it. Trust that there is nothing bad there...quite the contrary... everything 'good' was left in it.

LET IT BREATHE

Like fine wine, great bourbon gets better when exposed to the air.

TASTING NOTES

The bold flavors of 2024 Cowboy Bourbon create a delightful balance of sweetness and warmth. Imagine snickerdoodle cookies dusted with cinnamon sugar, dipped in maple syrup, followed by a rich, melted chocolate brownie infused with warm pecan wood and brown sugar. Hot Saigon cinnamon and vanilla intertwine with notes of fudge-covered raisins and white chocolate-dipped strawberries. The mouthfeel is bold and coating, with layers of dried fruit and licorice leading to a smooth, lingering finish of vanilla and warm pecan wood.

-Dan Garrison, Founder
